Revitin Oral Therapy Review

August 17, 2012 by Nancy

Oral health is so important to me. I feel like taking care of your teeth and gums really helps your overall health, and of course, a great smile is an instant confidence booster!

I never realized that most toothpastes contain detergents or chemicals. I always kind of figured that toothpastes were all the same, but now I know that is simply not true. Hence the warnings about ingesting them...

Revitin was created by Dr. Gerry Curatola and Dr. David Shuch. You have probably seen Dr. Curatola on Martha Stewart, Dr. Oz, or heard about him in the New York Times, Vogue, Allure, O-Magazine, or one of the other high profile places he and Revitin have been featured.

I'm not claiming to be a doctor, nor do I know exactly how Revitin works, but here's what I can tell you. Revitin does not contain any harsh chemicals, is safe to ingest, and contains antioxidants, micronutrients, herbal extracts and homeopathic salts. As someone with sensitive teeth I can say that my teeth feel clean, strong, and smooth after using it for a few weeks and that feels great! (And it really does taste good too!) Revitin has also been recommended for anyone who is going through chemotherapy and is suffering from related mouth sores or sensitivity. You can read some really amazing testimonials here.

More about NuPath Bioactives: Contrary to the conventional approaches to unhealthy oral environments which use detergents and antimicrobials to clean and disinfect, NuPath® Bioactives respects and works with the natural ecology of the mouth, and the needs of the cells.

Although Revitin is more expensive than other toothpastes it is worth it to me to keep the harsh chemicals that are entering my body at a minimum. This is an easy solution to making my life and my family's lives a little healthier.

Stay tuned, we will sharing a discount code for our readers! In the meantime, check out

Welcome!

Hi. I'm Shera and I am the founder of A Frog In My soup and would like to take a moment to welcome you here! When I am not here writing articles on motherhood, recipes or creative projects, I am the mom of 6 boys. It is our goal to encourage and equip moms through our articles and projects. So Welcome! I hope you can stay awhile and come back to visit us soon! [Read More...](#)
